Professional Summary

Flutter Developer with 3+ years of experience building scalable cross-platform mobile and web applications using Flutter, Dart, Firebase, and REST APIs. Experienced in developing production applications including VPN platforms, finance tools, AI-powered apps, and e-commerce systems. Strong expertise in state management, real-time systems, and clean architecture.

Technical Skills

Programming Languages	Dart, Java, Python, C, Swift
Mobile Development	Flutter, Android, iOS, Cross-platform Development
Frameworks	Flutter,GetX
Backend & APIs	Firebase, Firestore, REST APIs
Architecture	Clean Architecture, MVC
Networking	WireGuard, OpenVPN, IPSEC, Singbox
Tools	Git, GitHub, GitLab
Other	Authentication, Push Notifications, Real-time Chat, Offline-first Apps

Professional Experience

Software Engineer

Nagorik Technologies LTD

2025 – Present

- Develop scalable Flutter applications for Android and iOS platforms.
- Integrate REST APIs and Firebase services including authentication and Firestore.
- Implement real-time features such as chat systems and push notifications.
- Improve application performance and maintain clean architecture standards.

Junior Software Engineer

Sumash Tech Limited

2023 – 2025

- Built cross-platform mobile applications using Flutter and Dart.
- Developed secure authentication systems using Firebase.
- Implemented VPN networking technologies including WireGuard and OpenVPN.
- Collaborated with design and backend teams in Agile development environments.

Part-Time App Developer

Great Technical Solution

2024 – Present

- Developed invoice and expense management applications.
- Implemented offline-first data storage and synchronization.
- Published applications on Google Play Store and Apple App Store.

Selected Projects

Enova VPN — Flutter, WireGuard, OpenVPN

Developed a cross-platform VPN application available on Android, iOS, Mac, and TV platforms. Implemented encrypted tunneling protocols for secure internet access.

Deen – Islamic Companion App — Flutter, Firebase

Built a mobile application featuring Quran, Hadith, prayer times, Ramadan schedules, and real-time widgets with notification support.

OptiluxBD – E-commerce Platform — Flutter, REST APIs

Developed an e-commerce mobile application enabling product browsing, order management, and secure API integration.

gExpense – Expense Manager — Flutter, Offline-first Architecture

Created a finance tracking application that allows users to manage budgets and analyze spending habits.

Education

BSc in Computer Science and Engineering

University of Liberal Arts Bangladesh

2024

Achievements

- Champion — NASA Space Apps Challenge (Dhaka Division) 2025
- 6th Place — DIU Take Off Contest 2021
- 27th Place — Unlock The Algorithm Programming Contest 2022
